SUBJECT: EXTRANCHECK: POST-SHIPMENT VERIFICATION: JENGAN INDUSTRIAL  
EST., DUBAI, UAE.

REF: USDOC OEA Email, dated 4/7/2009

1. Ref email requested that post conduct a three post-shipment verifications at Jengan Industrial Establishment for the shipment of numerous centrifugal pumps exported as No License Required by American Marsh Pumps, Collierville, TN.

2. On April 9, 2009 Export Control Officer (ECO) met with Mr. A. Jayaraman, Assistant Division Manager, Purchase and Administration, Jengan Est. Jayaraman stated that Jengan is an industrial engineering service and equipment provider throughout the GCC region ([www.jengan.com](http://www.jengan.com)). Just one of their product lines for their construction engineering division is industrial pump machinery. Observations of the Jengan facility were consistent with an industrial pump and equipment showroom and warehouse facility. ECO requested information regarding the three transactions in question. Jayaraman advised that these three orders are likely destined for the Dubai Metro project. Jayaraman stated that ECO would have to talk to Mr. Mehdat Zedan, Manager of Jengan's Abu Dhabi office who managed this order for further details and documentation regarding these shipments.

3. On April 21, 2009 ECO met with Mr. Medhat Zedan, Manager of Jengan's Abu Dhabi operations. Zedan advised that these numerous centrifugal pumps are being supplied to SNC-Lavalin, a subcontractor for the Dubai Metro project (managed by the National Central Cooling Company - Tabreed). These pumps are to be used to circulate and pump air for 5 separate cooling plants that will cool Dubai's new metro stations. Zedan provided ECO with all related documentation for these transactions.

4. Post considers Jengan Industrial Est. to be a reliable recipient of U.S. origin equipment for these transactions.
